SWAN

SPRAY OIL ADJUVANT

DIRECTIONS FOR USE

Important: Prior to use read all directions on this label and on the label of the companion crop protection product. The product(s) label for the specific usage and restrictions have precedence over Directions for Use referred to on this label.

Swan Spray Oil Adjuvant is compatible with a wide range of herbicides including:

Atrazine #	Broadstrike* Herbicide	Eclipse* Herbicide
Garlon* 600 Herbicide	Grazon* DS Herbicide	Lontrel* 750SG Herbicide
Starane* 200 Herbicide	Topik* 240 Selective Herbicide	Tordon* 75-D Herbicide
Verdict* 520 Herbicide	Tordon*242 Cereal Herbicide	Fusion WG Herbicide
Select Herbicide	Targa Herbicide	Fusilade WG Herbicide
Achieve Herbicide	Verdict 520 Herbicide	

when mixing with atrazine water dispersible granule formulations, agitation is required.

Swan Spray Oil Adjuvant is compatible with cotton defoliant products such as: Thidiazuron, Ethephon.

Swan Spray Oil Adjuvant is compatible with the insecticides: Predator* 300 Insecticide, Tracer* Naturalyte Insect Control.

SITUATIONS	CRITICAL COMMENTS
Broadacre cropping including fallow (except sugarcane)	Where specified use 500 mL Swan Spray Oil Adjuvant per 100L water, applying a minimum of 250 mL of Swan Spray Oil Adjuvant per hectare.
Sugarcane and Cotton Defoliation	Where specified use 1 L Swan Spray Oil Adjuvant per 100 L water, applying a minimum of 500 mL of Swan Spray Oil Adjuvant per hectare.
Spot and High-volume Spraying	Where specified use 500 mL Swan Spray Oil Adjuvant per 100 L water, applying to the point of run-off.
Horticulture Swan Spray Oil Adjuvant is compatible with Verdict* 520 Herbicide for horticultural uses	Use 500 mL Swan Spray Oil Adjuvant per 100 L water, applying a minimum of 250 mL of Swan Spray Oil Adjuvant per hectare.

NOT TO BE USED FOR ANY PURPOSE, OR IN ANY MANNER, CONTRARY TO THIS LABEL UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION.

WITHHOLDING PERIOD

Adhere to the withholding period(s) specified on the label of the companion product(s) used.

GENERAL INSTRUCTIONS

Mixing

These are general mixing instructions. Always follow the mixing instructions of each ingredient in the tank-mix. Ensure product compatibility. Recommendations on other product labels take precedence over mixing instructions on this label.

- Add water to the spray tank to 10cm above the level of agitation and ensure the agitation device is working vigorously (there must be a minimum of 100L of water in the tank before any pesticide is added).
- If tank mixing, use the following general order for mixing partners. First add water dispersible granules (e.g. Eclipse), second add flowable formulations (e.g. Atrazine), third add emulsifiable concentrates (e.g. Starane*200EC), fourth add water-soluble liquids (e.g. Lontrel* Herbicide) and last add Swan Spray Oil Adjuvant and other adjuvants.
- Between the additions of each ingredient allow at least one minute to ensure thorough mixing before the new tank-mix partner is added.
- Finally add Swan Spray Oil Adjuvant. Continue filling the tank to the required volume maintaining agitation at all times.
- Only mix sufficient spray solution for immediate use. Verdict* 520 and any other tank-mixes should be applied immediately for best results.

Storage of Spray Solution

Agitate for 1 hour every 8 hours and agitate for 1 hour before spraying out where spray solution is not applied within 8 hours of mixing.

Cleaning Spray Equipment

The presence of product(s) makes it essential for the spray equipment to be cleaned thoroughly between different applications. To rinse and decontaminate spray equipment refer to relevant product labels for instructions.

PRECAUTION

Explosion Warning: 'Empty' containers may contain liquid and/or vapour, which can be explosive if exposed to an ignition source at temperatures above 90°C. Such conditions may occur during cutting or welding. DO NOT cut or weld these containers. Explosion may cause injury or death.

PROTECTION OF WILDLIFE, FISH, CRUSTACEANS AND ENVIRONMENT

DO NOT contaminate streams, rivers or watercourses with the chemical or used container.

STORAGE AND DISPOSAL

Store in the closed original, container in a cool, well-ventilated area. DO NOT store for prolonged periods in direct sunlight. DO NOT store near food, feedstuffs, fertiliser, or seed. Triple-rinse containers before disposal. Add rinsings to spray tank. DO NOT dispose of undiluted chemicals on site. If recycling, replace cap and return clean containers to recycler or designated collection point. If not recycling, break, crush, or puncture and deliver empty packaging to an approved waste management facility. If an approved waste management facility is not available, bury the empty packaging 500 mm below the surface in a disposal pit specifically marked and set up

for this purpose, clear of waterways, desirable vegetation, and tree roots, in compliance with relevant Local, State or Territory government regulations. DO NOT burn empty containers or product.

Recyclable Containers: Empty contents fully into application equipment. Close all valves and return to point of supply for refill or storage.

Small Spill Management

Wear appropriate clothing whilst cleaning up small spills. Apply absorbent material such as earth, cat litter, sand, or clay granules to the spill. Sweep up material for disposal when absorption is complete. Dispose of the contaminated material in accordance with Local and/or State recommendations.

SAFETY DIRECTIONS

Will irritate the eyes. May irritate the skin. Avoid contact with eyes and skin. When opening container, preparing spray wear elbow-length chemical resistant gloves and face shield or goggles. If product gets in eyes, wash it out immediately with water. Wash hands after use. After each day's use, wash gloves and face shield or goggles and contaminated clothing. When using with another chemical, consult the safety directions of the companion product.

FIRST AID INSTRUCTIONS

If poisoning occurs, contact a doctor of Poisons Information Centre. Phone Australia 13 11 26.

SAFETY DATA SHEET

Additional information is listed in the Safety Data Sheet that can be obtained from the supplier.

CONDITIONS OF SALE

The use of Swan Spray Oil Adjuvant being beyond the control of the manufacturer, no warranty expressed or implied is given by Swan Chemical Holdings Pty Ltd regarding its suitability, fitness or efficiency for any purpose for which it is used by the buyer, whether in accordance with the directions or not and Swan Chemical Holdings Pty Ltd accepts with no responsibility for any consequences whatsoever resulting from the use of this product.
